Buffet bowls

Showpieces of table culture – “Reef”

Please note:

Since medieval times, pewter has been used primarily for table top items and has been the most important raw material for a very long time. The popularity of pewter first started decreasing in the 18th and 19th century by the progressing development of glass and the increasing popularity of porcelain. Since then the usage of pewter has shifted mainly to decorative elements. Up-to-date pewter is 100 % lead-free and therefore uncritical when used for food.

Massive brass, produced in traditional sand casting, creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination.

The bowls "Roots", a tight web of rootlike structures, and "Matrix", strictly geometrically constructed of hexagons, are entirely different in their shape but nevertheless belong together. This aspect makes the combination of the two so interesting. Besides the presentation of bread and fruit on the buffet, these bowls fascinate as sculptures or decorative elements as well. An interesting add-on to the "Fakir" bowls are round glass platters of the Zieher product range. These can be laid on easily and thus generate the option to use the impressive objects on both sides.

All items are golden-coloured and partially dark patinated, further discolouration or oxidation is prevented reliably by the food-safe sealing of the golden parts.

→ Buffet stands "Somnia" | p. 21

"Roots", "Matrix" and "Fakir" – Brass all of a piece

Ivory-coloured clamshells with a nacreous gloss grant these products their special appeal. In combination with crushed ice and the Zieher rechargeable LED-lights, the double-walled bowls, produced in mosaic-look, create fascinating effects. The double-walled construction provides insulating characteristics. This prevents the formation of condensation on the outside of the bowls to the greatest possible extent.

The service trays “Orbis” are made of solid brass and furnished with a matt surface structure. The modern appearance of these products results from the matt-golden tint and the reduced creation. The trays are available in two sizes and predestined for the use in a bar, on the buffet or the service in a restaurant.

All trays are food-safe sealed, nevertheless the direct contact with food should be avoided. Primarily, the varnishing prevents from too rapid formation of patina, which is inevitable for brass. In the long term, this patina is actually desired as it is exactly this matured colour, occurring in the course of time and use, which exudes a very special charm. By and by, these trays become more and more beautiful, each piece evolves into a unique copy.

The trays and bowls of the “Artisan” series are fascinating and diversified at the same time. The inside with its perfectly polished surface creates an interesting contrast to the matt outside. The handcrafted rim impresses by its irregularity and is crowned by a circumferential brass edge. The combination of hammered and plain surfaces, of massive stainless steel and brass, awards this series with that certain something.

“Medusa”

“Medusa” – risen from the deep-sea

The tentacles, modelled in numerous processing steps, appear very filigree, but they still provide a safe base. Despite the solid stainless steel, these hammered bowls award a natural airiness and an almost floating impression. “Medusa” offers the perfect setting for all sorts of seafood or extravagantly presented salads and desserts. Even as a decorative storage space, these bowls cut a good figure.

Thermo bowls “Shine”

The stainless steel bowls of the “Shine” series are double-walled and therefore have an isolating effect. This helps to prevent water condensation – even at higher temperatures. Cold food stays cold and warm food stays warm longer.

The accentuated contrast between the highly polished outside and the unobtrusive finish on the inside (fine brushed stainless steel, ivory or taupe coloured) makes that series an eye-catcher.

Manufactured in old tradition

Each of these high grade bowls is unique and almost completely handcrafted. At this, coloured glass is completely covered with crystal clear glass, which awards the bowls with top brilliance and an impressive look. The handblown glass blank is modelled manually, whereby unique pieces are created which excite by their organic shape.

This monumental bowl made of dark grey glass arches like a sculpture and melts optically with crushed ice to stage classy seafood or champagne in an opulent way.

In combination with the Zieher rechargeable LEDs, which perfectly accentuate the irregular structure of the glass, the presentation becomes even more dramatic! This effect is further intensified by the optical refraction of the ice.

This impressive bowl with a diameter of 82 cm can be placed free-standing on the floor by using the fitting rack (item 8213). But also right at the buffet table or arranged together with the stands of the “Crossline” series in different heights – these designer pieces know how to impress.

"Cave"

The glass version of the "Cave" bowl is available in two sizes. The soft tinge of this grey glass at first glance allows an unobstructed view onto the content of these shapely objects. "Cave" offers the fitting framework for fruit, nuts and nibbles as well as for tastefully arranged pasta or salad. The content of the bowls remains protected by the shell of glass, the amply dimensioned opening seduces to snap at a chance. These unique items also enthuse as a place to keep all kinds of accessories. The smaller version, made of china, is available on page 170.

"Duplex"

The "Duplex" bowls, which can be used on both sides, create a harmonious setting for stylishly arranged dishes. If the closed side is turned upwards, a gentle trough is created for presenting sophisticated dishes. By using it upside down, there will be more capacity, which is ideal e. g. to fill in crushed ice.

Handblown bowls

The handblown bowls made of grey tinted or varnished glass (8414.17) are restrained in their shape, but very versatile in their appearance. By combining the bowls with the gold-coloured stands of the "Somnia" series (page 21), opulent and extravagant buffet stagings can be created.

Optionally available silicone rings form a non-slip base and increase stability.

Please note:

All items shown on this pages are hand-blown. Therefore it is impossible to avoid variations in glass thickness, colour intensity and weight.

Item 4814.17 is varnished. Therefore we recommend hand washing for this bowl!
