The “Mercato” buffet baskets made of walnut are inspired by classic market boxes, but they are superior in many respects. Finger joints in the corners for maximum stability, solid walnut in modern design as well as deliberately chosen dimensions of the heights and lateral cutouts offer numerous advantages. “Mercato” can be converted quickly and flexibly into a buffet display by the use of buffet platters. These platters (from page 52) can simply be laid on or pushed into the lateral cutouts of the baskets (max. width 21 or 34 cm).

The integrated rubber feet ensure safe standing and guarantee the stackability of the baskets. Bread, rolls and pastries remain crisp and fresh longer, as the slotted bottom plates allow sufficient air circulation.

The “Solid” bed tray is a nice addition to this system. Due to its integrated foldable feet, there is no need for displays for elevated positioning. For more information on the bed tray, please see page 291, for the fitting “Solid” breakfast buffet, please check pages 120 onwards.
