

"Fingerfood-Tree"

Equipped with rings size M, the fingerfood-tree is perfectly suitable for presenting portion jam in conical glasses, e.g. Bonne Maman

Please note:

The trees are being delivered with unbent branches; the bending has to be arranged before the first use!

The branches are made of stainless steel and will sag when loaded with food. This is why the branches should not be bent too far down when empty. In order to obtain a more favourable result, it is recommended to bend the branches one by one and to work in a circle from the outside to the inside.

The different attachments can be screwed onto the end of the branches, whereas the connection point should only be tightened up slightly. When using the rings or spiral supports, it is recommended to leave the connection point open by about half a turn, as they will turn into the apt position by themselves due to the weight of the attachments.

spring clip support

stainless steel 18/10, polished, to screw onto the "branches" of the fingerfood-tree item 8018.01

The fingerfood-trees by Zieher are absolutely delightful due to their extraordinary look and variable uses achieved by the different attachments!

Besides a clip that holds wooden skewers and a spiral for small wraps and waffles, we offer rings in three sizes, of which the medium size is especially designed for holding small conical jam jars (e.g. Bonne Maman). Velcro straps to fasten the 30 branches and a stout carrier bag are available from the accessory section and allow easy transport and space-saving storage of the bent trees.

hook-and-loop strap

black, with chrome-plated clasp, for easy transport and space-saving storage of the fingerfood-tree item 8018.01

item	l x w in cm
