

“Reef” – showpieces of table culture

Large numbers of single parts are casted from premium pewter and subsequently assembled in high-grade craftsmanship to give shape to these items. The inimitable pieces of art created that way are unique items, which inspire by the polished surface of the organic structures and the rounded tails of the meshwork.

The small presentation baskets can be equipped with miniatures made of clear or coloured glass and give your food a stunning stage.

Borosilicate glass in its most beautiful shape

The primary design element of the series “Cuspis” is a glass ball studded with fine spikes. The cloches with fitting porcelain plateau plates/bowls are available in three sizes, the inspiration for their shaping was derived from the nut of the oak tree. The unglazed outside of the porcelain bowls is reminiscent of acorn caps.

The bowls can be used on both sides. When used as a plateau plate, the dish moves closer to the guest, while the filigree glass cloche protects the presented delicacies and puts them in the limelight at the same time. Used as a bowl, it offers space for gravies, sauces and more.

Design: Michael Schwarzmüller

Handblown, double-walled glasses made of borosilicate glass combine spectacular optics and extraordinary technical features.

The vacuum between the two glasses prevents the formation of condensate on the outside of the glass when the ambient temperature is warm and the drinks are cold. The isolation effect keeps cold and warm liquids cold or warm for a longer time. Borosilicate glass by Zieher stands out due to its hardness and high temperature resistance.

Please note:

Since all glasses of this series are handblown,deviations from the declared content may occur.

The coasters made of food-safe silicone are shapely accessories with a highly practical benefit. Clattering and wildly sliding miniatures on plates and trays are therefore a thing of the past.

The skid-proof discs with their delicately structured, matt surface facilitate the service work and ensure undisturbed enjoyment for the guest. The coasters are available in two colours; the white ones can be integrated discreetly, whereas the black ones can be used deliberately as contrasting, decorative elements.

A ring and a test tube holder made of black silicone provide a stable base for numerous small bowls and miniatures.

Like the shell hides the pearl, the porcelain bowl "Cave" conceals precious delicacies within its hard shell. At first sight, this porcelain piece only partly reveals its interior.

"Cave" consists of intricately worked hard porcelain and captures by its soft shaping and the velvety haptics of the unglazed outside. "Cave" is predestined for use at cocktail and hors d'oeuvres receptions or at the flying buffet. The miniature bowl can be carried comfortably and perfectly fits in the palm of the hand.

Stay cool!

Serving chilled food is primarily a technical challenge with certain dishes or intermediate courses. With the two-coloured cooling pads, this necessity can be met in a sophisticated way, also in terms of visual appearance. The wrapper made of black respectively white nylon fabric appears classy and unobtrusive. The pads are filled with gel which remains shapeable, even when frozen and thus allows an adjustment to the tableware used.

Slate is a unique and exceptional natural product. The surfaces of our slate platters have the typical slaty cleavages, therefore every piece is unique. Small deviations in structure, thickness and weight of the plates cannot be avoided because of the nature of the product. There may be single inclusions of other minerals and fossils. These extraordinary features give slate its precious and vivid appearance. Please note: Specific groceries, especially those that contain fruit acid (citric acid), may damage the surface in case of longer contact. Therefore we recommend avoiding direct contact with edibles.

These slate plates are unsealed. In order to give them an evenly dark grey colour and to freshen up the surface, we recommend rubbing the plates with some vegetable oil from time to time.

Serving guests at the pool, beach or on the terrace is often associated with longer walking distances for service staff. The “Bento Box” from Zieher has been designed especially for these requirements – all components are stackable. This way, a space-saving storage and a comfortable, non-slip transport, even with several dishes at the same time, is guaranteed.

The versatility of the individual components also becomes evident in the cover. This lid can also be used as a tray, whose lightly textured inside has an anti-slip effect.

All information about the “Bento Box” can be found on page 133.

The room service tray as well as the bed tray stand out due to the precious walnut wood, which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray.

The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The height of the erected tray has been chosen in a way that, even with soft mattresses, a comfortable sitting beneath the tray is guaranteed. So start off the day with a boundlessly relaxing breakfast in bed!

Finest creations of the pâtisserie have to be presented in a worthy frame!

Marco D’Andrea:

“The round deepenings in this presenting box are specifically matched, that even if the box is inclined, the truffles will not roll out. Chocolates/truffles with a diameter ranging from 22 to 28 mm fit easily into the deepenings. The dark wood of the walnut tree gives the box a fine and modern look.

The tinted glass reveals the secrets hidden inside the box only once it is given a very close look. The glass can be inserted vertically into the back part of the box or can be slid in under the box. Once closed, anything inside the box can be stored hygienically. The narrow, sidelong compartment in each box can be used individually. Besides placing a tong or other serving cutlery, it can also be used for the presentation of more chocolates or petit fours.”

The idea and design for these presentation boxes “Solid” for truffles and filled chocolates are from Marco D’Andrea, “Junger Wilder 2012” and proclaimed “Pâtissier of the year 2014” during the “Leaders of the Year Award” convention (powered by ROLLING PIN). His first cookbook “Modern TeaTime” was published by Südwest Verlag in autumn 2021.

Further awards:

“Pâtissier of the year 2019” - Rolling Pin

“Pâtissier of the year 2020” - Gault Millau

“Pâtisserie team of the year 2020” - Schlemmer Atlas

The bread baskets made of solid walnut wood surprise with their exceptional design and their highly sophisticated handcraft. Designing these bowls, the Milanese designer Itamar Harari did not only think of serving bread, but also of the typical Italian Grissini. Recesses at both ends are especially suitable for those. A selection of fruit in the hotel room also receives much attention if stylishly presented in these extraordinary bowls made of beautiful wood.

Massive brass, produced in traditional sand casting, creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination.

An interesting add-on to the “Fakir” bowls are round glass platters of the Zieher product range. These can be laid on easily and thus generate the option to use the impressive objects on both sides.

Please note:

Brass items are only suitable for cold/dry food. Do not clean in the dishwasher.

The service trays “Orbis” are made of solid brass and furnished with a matt surface structure. The modern appearance of these products results from the matt-golden tint and the reduced creation. The trays are available in two sizes and predestined for the use in a bar, on the buffet or the service in a restaurant.

All trays are food-safe sealed, nevertheless the direct contact with food should be avoided. Primarily, the varnishing prevents from too rapid formation of patina, which is inevitable for brass. In the long term, this patina is actually desired as it is exactly this matured colour, occurring in the course of time and use, which exudes a very special charm. By and by, these trays become more and more beautiful, each piece evolves into a unique copy.

Primarily, “DryPod” is a dry rack for decanters.

The solid structure made of brushed stainless steel, refined in either black or brass colour, forms the basis for this shapely product.

Also besides its actual determination, “DryPod” is tempting by its versatility. As an etagere on the laid table or in the hotel room, the rack can be equipped with numerous other Zieher articles and thus presents food and delicacies in an impressive way.

Please find all information about “DryPod” on page 213.
