melamine, black, surface matt, stackable, food-safe, dishwasher-safe, not suitable for microwave and combi steam oven, partition for cutlery/napkin/inserts (28 cm x 7.5 cm) or for platters (28 cm x 28 cm)

“Bento Box”

“Bento Box” – flexible mobility

Matt black melamine, modern design and subtle contrasts, created by different surface structures, form the perfect setting for individual creations and popular classics such as burgers, club sandwiches or salads.

The box is divided into a main compartment for plates up to a diameter of 28 cm and a narrow side compartment for cutlery and napkin or miniatures made of glass and porcelain.

Optionally available inserts create additional space for side dishes, sauces or dips, when placed above the cutlery compartment. Up to four of these boxes can be placed in a Bento Box if required, and, with a correspondingly flat content of the main compartment, create a second level for even more flexibility.

The cover has decorative ventilation slots to dissipate steam generated by hot food. This lid can also be used as a tray, whose less finely textured inside has an anti-slip effect.

Box, insert and lid are sold separately and can be combined as desired. All components are stackable. This way, they guarantee a space-saving storage and a comfortable, non-slip transport, even with several dishes at the same time.

Robust and elegant – melamine!

The advantages of melamine, such as dishwasher-resistance and food-safety, are particularly evident in daily catering use.

The matt black surface of the Zieher melamine items generates a superb contrast to glass and porcelain and impresses by its pleasant haptics. The trays are available in common GN formats and in three slim rectangular formats.

Different boxes made of the same material can be arranged in a variety of combinations on all melamine trays and thus offer enormous potential for a use at the Flying Buffet, in catering, at the bar or at the breakfast buffet. A selection of suitable combinations is available on the following pages.

The sturdy containers can also be used as plain elevations for platters and trays. Without additional efforts in procuring material, it is possible to arrange varied buffet presentations quickly and easily.

The bridges and spoon rests (page 142) can be used on all trays, non-skid rubber feet on the bottom side facilitate the service enormously.

“Modul” – walnut

“Modul” is a flexible product ready for “Flying Buffet” service – and therefore ideally suited for the use in the catering area. The slim, oblong format of the base tray, which is available in three sizes, renders the often cumbersome service at crowded standing receptions barrier-free and uncomplicated. The trays can be variably fitted with glass or porcelain parts, a bridge for glasses or a spoon bench for 4 spoons. When using two spoon benches, 4 long skewers can be placed safely on top.

“Modul” is manufactured from solid walnut wood or from melamine in a modern matt-black design.

→ Buffet stands “Antique” | p. 45

The grooves at the bottom side of the tray let water from the dishwasher run off.

The advantages of melamine are manifold. It is dishwasher-safe and food-safe, which becomes evident in daily catering use! The smallest tray is 53 cm long and is therefore partially compatible with existing GN-systems. All trays are stackable.

Besides the merely technical properties, the flat black trays differ from the variant made of walnut by their modest design and modern appearance.

A breeze of enchanted forest

The imperfection and individuality of handmade ceramics convinces, opposite to the standardised results of industrial manufactured bulk goods, by its very charming and natural flair.

It's only the used reactive glaze that awards the organically shaped plates and bowls of the ceramic series “Bosque” their very special charm. These effect glazes react during the firing process with special ingredients and thus create fascinating patterns, which are basically similar but never identical. They emphasise the handmade character of the crockery and make each piece unique.

With “Bosque”, a play of colours of different shades of green, blue and grey is created in fascinating gradients and effects that exude an elegant vibrancy and a festive mood.

The glass plates and bowls of the “Gelo” series set frosty accents and convey a high valence on the set table by their satined surface and robust style. The bowls, which feature a slight structure on the inside, harmonise very well with the smooth surface of the organically shaped plates. All items of this series are made of extra white special glass which, compared to standard glass, contains a significantly reduced green component.

The reluctant design and plain geometry of these plates result in a perfect basis for the modern staging of premium dishes.

The rampant elevated rim creates sufficient space, the subtle structure of the almost pure white glass also optically forms the frame for extraordinary dishes of the haute cuisine.

The plates and bowls of the “Unique” series are made of clear glass, which is awarded an inimitable character by adding white glass components. This creates individual streaks and swirls, which assemble to highly exciting patterns. The underside of the plates as well as the outside of the bowls are blasted, which results in satined optics and pleasant haptics.

“Unique” presents - in shape and decor - a counterpart to the uniform character of industrially manufactured mass products and proves to be as unique as its users.

Dark accents!

The “Sombre” series combines the robustness of porcelain with the individual charm of unique pieces made of ceramic. Particularly resistant hard-paste porcelain enables the production of comparatively thin and filigree parts, which are provided with a matt black glaze.

The deep dark hue of the matt glaze deliberately focuses on decent irregularities and puts the served dishes into the centre of attention. The organic shape creates a subtle tension. It fits into any environment without losing its individuality.

Please note:

Due to the special glaze, irregularities such as running marks or inclusions can appear on the underside of the items. These deliberately contribute to the organic, rustic charm of the items and are unavoidable.

“Pulsar” – Sparkling impulses!

This gourmet plate is predestined for appetizers, intermediate courses or desserts.

The surface is reminiscent of the playful waves created on a smooth lake after a stones throw. The viewer’s gaze purposefully wanders to the centre of the concentric design and this way, the served dishes come straight to the fore.

“Pulsar” is made of high-quality hard porcelain in a surprisingly soft composition and is available glazed in glossy white or in matt black.

If the item is used upside down as a plate, the two rings on the big plates underside can be used on the one hand to separate the prepared dish into different sections and on the other hand the cloches of the “Cuspis” series may also be used with it (4940.10 on the inner ring, 4940.25 on the outer ring).

Borosilicate glass in its most beautiful shape!

The primary design element of the series “Cuspis” is a glass ball stud-ded with fine spikes. The cloches with fitting porcelain plateau plates/ bowls are available in three sizes, the inspiration for their shaping was derived from the nut of the oak tree. The unglazed outside of the porcelain bowls is reminiscent of acorn caps.

The bowls can be used on both sides. When used as a plateau plate, the dish moves closer to the guest while the filigree glass cloche protects the presented delicacies and puts them in the limelight at the same time. Used as a bowl, it offers space for gravies, sauces and more.

“DressCoat” was created by the glass and porcelain designer Nadine Podewski. The creation of the plates and bowls respectively is characterised by the apparently free falling drapery of table cloth. This creates a seemingly weightless, almost floating effect. The slightly concave shaped surface offers space for artfully decorated dishes and reliably avoids the sloshing of sauce.

“DressCoat” is available in three different sizes. Besides the main application as a plateau plate, each item can also be used as a bowl. The falling folds add up to an exciting game of shapes – in particular if used as a bowl.

Bedded on glass or china

The organic form of these extraordinary objects offers an ideal presentation area for high-end dishes or to keep various items of everyday life. The glass cushion also cuts a fine figure when used as a soap dish. The larger version made of porcelain sets the scene for every dish in a surprising way and forms an exciting contrast to conventional porcelain shapes.

“Collina” is perfectly suitable for antipasti and delicacies from the patisserie, but also a selection of fruit in the hotel room can be beautifully put in the limelight.

In order to protect the sensitive surfaces of furniture, every plate comes with feet made of rubber, which can be stuck on if needed. The rigorously geometrical structure permits the assembling of several plates, which allows to enlarge the effective area of the platters in both length and width. When looking at the surface from the side, the arrangement has the appearance of a desert landscape arbitrarily formed by the wind.

“Cave”

“Cave” consists of intricately worked hard porcelain and captures by its soft shaping and the velvety haptics of the unglazed outside. The miniature bowl is predestined for the use at cocktail and hors d’oeuvres receptions or at the flying buffet and can be carried comfortably and perfectly fits in the palm of the hand.

The glass version of the “Cave” bowl is available in two sizes and offers the fitting framework for fruit, nuts and nibbles as well as for tastefully arranged pasta or salad. The soft tint of the grey glass, which is hand-blown in the traditional way, stages the contents of these shapely objects. They remain protected by the shell of glass, the amply dimensioned opening seduces to snap at a chance.

Stay cool!

Serving chilled food is primarily a technical challenge with certain dishes or intermediate courses. With the two-coloured cooling pads, this necessity can be met in a sophisticated way, also in terms of visual appearance. The wrapper made of black respectively white nylon fabric appears classy and unobtrusive. The pads are filled with gel which remains shapeable, even when frozen and thus allows an adjustment to the tableware used.

The cloches and porcelain coasters of the series “Cuspis” are inspired by the nuts of the oak tree. The ball-shaped handle at the tip of the cloches allows for an uncomplicated handling of these classy covers. Handblown cloches

The cloches on this pages are handblown and, in contrast to our cloches made of borosilicate glass (page 184), are worked by hand from a solid glass drop. Therefore small air inclusions and minor streaks cannot be avoided completely. Each cloche is unique, the result is a harmonic enlivenment of the buffet for an attractive price.
