

The indestructibility of laminated platters meets the advantages of plug-in systems. The plain displays are loosely stuck together, which ensures a quick and uncomplicated setup as well as a space-saving storage of the single components. Thereby “StiXXX” meets in particular the hard requirements of daily use in the catering business.

Zieher buffet platters and displays made of laminate are usable on both sides by the double-sided decoration. This exceedingly robust raw material is break- and scratch-proof, antistatic and dishwasher-safe and thus offers numerous advantages compared to other raw materials.

“Konkret!” – distinct design for highest flexibility!

The displays consist of a mixture of fibreglass and stone and therefore offer the deceptively genuine optics of concrete combined with low weight and high stability, which greatly facilitates handling.

Both variants of the displays (light grey and dark grey) are available in eight sizes; a dark grey XXL bowl impresses with huge size paired with light weight.

“Konkret!”

The dark-grey, double-walled XXL bowl inspires by its diameter of 100 cm and creates space for numerous drinks and cooled food. In empty state, it can easily be carried by one person. A filigree, but extremely solid stand made of powder-coated steel forms the perfect basis. A round glass plate separates ice from melting water and at the same time creates space for the Zieher rechargeable LED-light (page 47), which allows the illumination of the ice in striking colours. No matter if placed on the buffet table or on the stand – this bowl will leave a permanent impression on your guests!
