## Filigree understatement!

The filigree displays of the "Crossline" series feature an enormous stability due to their cleverly elaborated statics. These elements, which have been deliberately designed to have a plain and restrained appearance, unobtrusively blend into every ambience.

The rectangular base has been constructed especially for a presentation bowl made of dark grey glass, which among other things impresses by its length of approx. 130 cm. Hinged beams at the upper side of the trestle can be adjusted to the shape of the bowl individually. The supports are felt-covered, which minimises disturbing noise, evens out smaller asperities and provides for slip-resistance.

All trestles are made of galvanised steel and afterwards coated with a robust and scratch-proof matt black powder-coating. Therefore the stands are also suitable for outdoor areas. The variant of raw steel with a rusted and sealed surface inspires by the charm of corroded metal and perfectly matches the industrial style of modern architecture!

Low weight, space-saving storage due to its stackability, easy handling and quick installation are just a few advantages of the "Crossline" series.
